

List of Mills Potentially Connected to Henkel's Palm-Based Supply Chain in 2023

At Henkel we use ingredients based on palm oil, palm kernel oil and their derivatives to manufacture our laundry detergents, household cleaners, hair and body care products, and selected adhesive products. This represents less than 0.2 percent of the palm oil and palm kernel oil produced worldwide or an approximate annual quantity equivalent to 87,387.5 metric tons of palm-based ingredients. Our company is at the end of a long and often highly complex supply chain, where ingredient manufacturers are sourcing directly or indirectly from other manufacturers, traders, primary and secondary refiners and crushing plants. The latter are potentially connected to thousands of mills on the ground.

We conduct annually an in-depth investigation and mapping of our supply chain with the support of an independent third-party that engages with our direct and indirect suppliers. In 2023 they found that 1,314 mills were potentially connected to our top 90 percent volumes of palm-based derivatives supply chain. Below we disclose the detailed location, parent companies and the names of these mills. They are mainly located in five countries: Indonesia (70%), Malaysia (26%), Thailand (1.3%) and Colombia (0.7%), with the top five provinces being Riau (18%), North Sumatra (12.1%), Central Kalimantan (8.3%), Sabah (6.4 %), and West Kalimantan (5.3%).

Based on the identification of sources, Henkel is able to conduct a preliminary geographical risk assessment, and to engage with direct and indirect suppliers towards ensuring our requirement at Henkel of full NDPE compliance (No Deforestation, No Peat, No Exploitation).

The disclosed palm oil mills list is correct to the best of our knowledge at the time of publication. We have made considerable effort to validate the data but cannot guarantee its full accuracy or completeness. Therefore, Henkel makes no representation or warranty as to the accuracy and completeness of any third-party information contained herein.
