Addressing aging infrastructure challenges at AMPP 2025

Henkel advances comprehensive solutions to build, repair, and protect critical infrastructure, delivering end-to-end reliability

Düsseldorf, Germany – As infrastructure around the world continues to age, the need for reliable, long-term solutions has never been more critical. At the Association for Materials Protection and Performance (AMPP) Annual Conference and Expo 2025, held from April 6-10 in Nashville, TN, Henkel reinforced its commitment to supporting asset build, maintenance, repair, and protection by showcasing its expanded portfolio, which integrates industry pioneers Loctite, Seal For Life, and CSNRI. The result is a seamless, end-to-end suite of solutions designed to address industry challenges across multiple sectors.

Throughout the event, Henkel's technical leads engaged attendees with live product demonstrations, booth tours, and expert consultations, offering hands-on insights into innovative solutions for infrastructure maintenance. A key highlight was the keynote address on April 8, delivered by Pradhyumna Ingle, Senior Vice President of General Manufacturing & Maintenance at Henkel. His presentation 'Pioneering Critical Infrastructure Protection, Repair, and Rehabilitation' underscored the urgent need for proactive asset management and the role of sustainable solutions in extending infrastructure life.

"Reliability is at the core of what we do. For decades, we have helped shape and evolve the standards that keep essential infrastructure running," said Ingle during his keynote. "By combining technology leadership, proven expertise, and future-ready innovation, we help customers safely build, extend, and protect the world's most critical infrastructure and machinery."

Henkel's presence at AMPP 2025 highlighted the company's strategic approach to infrastructure challenges, emphasizing a shift from reactive repairs to pro-active maintenance

and repair, thereby reducing downtime and environmental impact. "By bringing together three industry pioneers Loctite, CSNRI, and Seal For Life. Henkel now offers a full-cycle, integrated approach to infrastructure protection, ensuring reliability and sustainability for years to come," Ingle concluded.

Henkel remains dedicated to advancing infrastructure solutions, empowering industries with cutting-edge technologies that enhance safety, efficiency, and longevity.
